

**April 2020**

## **Conference Cancellation 9<sup>th</sup> IC-SCCE 2020 Athens, Greece July 8-11, 2020**

After long contemplation and taking into account the statements of European Union's state-government leaders that international air-travel is not expected to start resuming before the end of the summer, I regretfully made the decision of cancelling the 9th International Conference from Scientific Computing to Computational Engineering (9th IC-SCCE 2020), planned to be held in Athens, Greece, from July 8th to July 11th, 2020.

The next IC-SCCE will be the 10th International Conference from Scientific Computing to Computational Engineering (10th IC-SCCE 2022), to be held in Athens, Greece, from July 6th to July 9th, 2022.

The next international conference organized by LFME (Learning Foundation in Mechatronics), [www.lfme.gr](http://www.lfme.gr), is the 9th International Conference on Experiments/Process/System Modelling/Simulation/Optimization (9th IC-EPSMSO 2021) to be held in Athens, Greece, from July 7th to July 10th, 2021, [www.epsmsso.gr](http://www.epsmsso.gr).

Those planning to participate in the 9th IC-SCCE 2020, are cordially invited to participate in the

9th IC-EPSMSO 2021. The First Call for Papers is expected to be announced in October 2020. Those that have already submitted abstracts/papers to the 9th IC-SCCE 2020, will be contacted individually about their submissions.

Finally, I would like to send my best wishes for good health to all of you and your loved ones, in this unexpected predicament of COVID-19.

Professor Demos Tsalhalis  
Chairman & Organizer: 9th IC-SCCE-2020  
Director: LFME (Learning Foundation in Mechatronics)
